# Learning Objectives for Today

- Review of Active Listening and Logical Speaking
- Project Management
- Project Management Game

# Active Listening

## Eye Contact

Eye contact during the conversation shows the speaker that you give him your attention and that you really care about what he says.

## Avoid Distractions

There are so many examples of distractions such as our thoughts, mobile phones, gadgets, music, side activities, other people and more. Learn to avoid these distractions otherwise they can destroy your conversation.

## Body Gestures

Body gestures and language are a whole science. Your body gestures tell the speaker whether you listen carefully or not.

## Give Feedback

Ask questions to clarify certain points, tell your opinions, summarize the speaker's comments.

## Show That You're Listening

Use facial expressions such as smile, note your posture, encourage the speaker to share and to continue.

Listening allows you to learn, to have relationships, to plan, to develop, to be the part of something, to create, to think.... and much more!

# Project Management |

# 8 things you want to know

- What is a Project?
- Process Groups
- The Triple Constraint
- Project Management Framework

# What is a Project

All projects have a beginning, a middle and an end.

# What is a Project

*A definition*

“A temporary endeavor undertaken to accomplish a unique purpose”

# Fact of Projects

Not even  
completed

Typically  
189% over budget

Bingo

Access it here: <http://net.educause.edu/ir/library/pdf/NCP08083B.pdf>

# Common characteristics

A target  
outcome

A defined  
life span

New or  
unique

Time, cost,  
performance  
requirements

Which can also be defined by what they are not

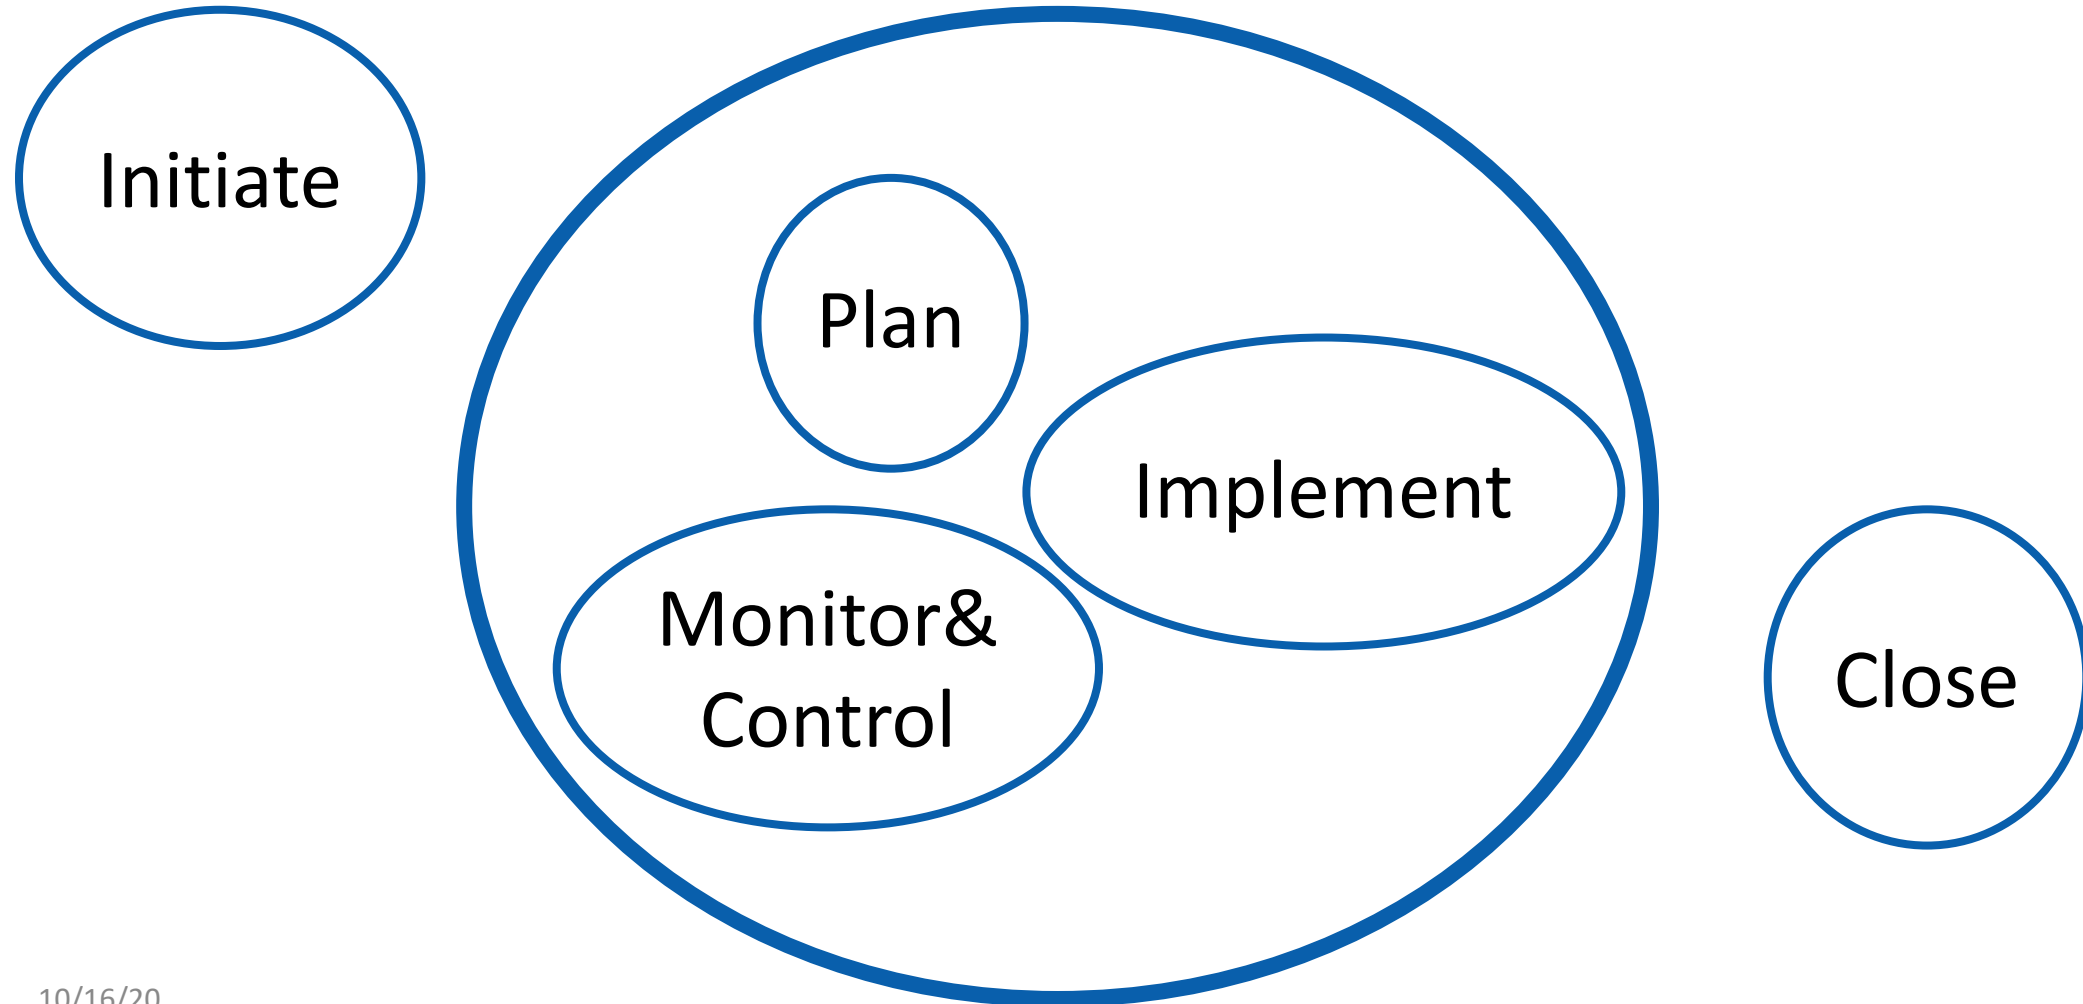

Explorations

Go on  
indefinitely

Creating the  
same thing  
multiple times

No constraints

# Process Groups

### Defining

1. Goals
2. Specifications
3. Tasks
4. Responsibilities

### Planning

1. Schedules
2. Budgets
3. Resources
4. Risks
5. Staffing

### Executing

1. Status reports
2. Changes
3. Quality
4. Forecasts

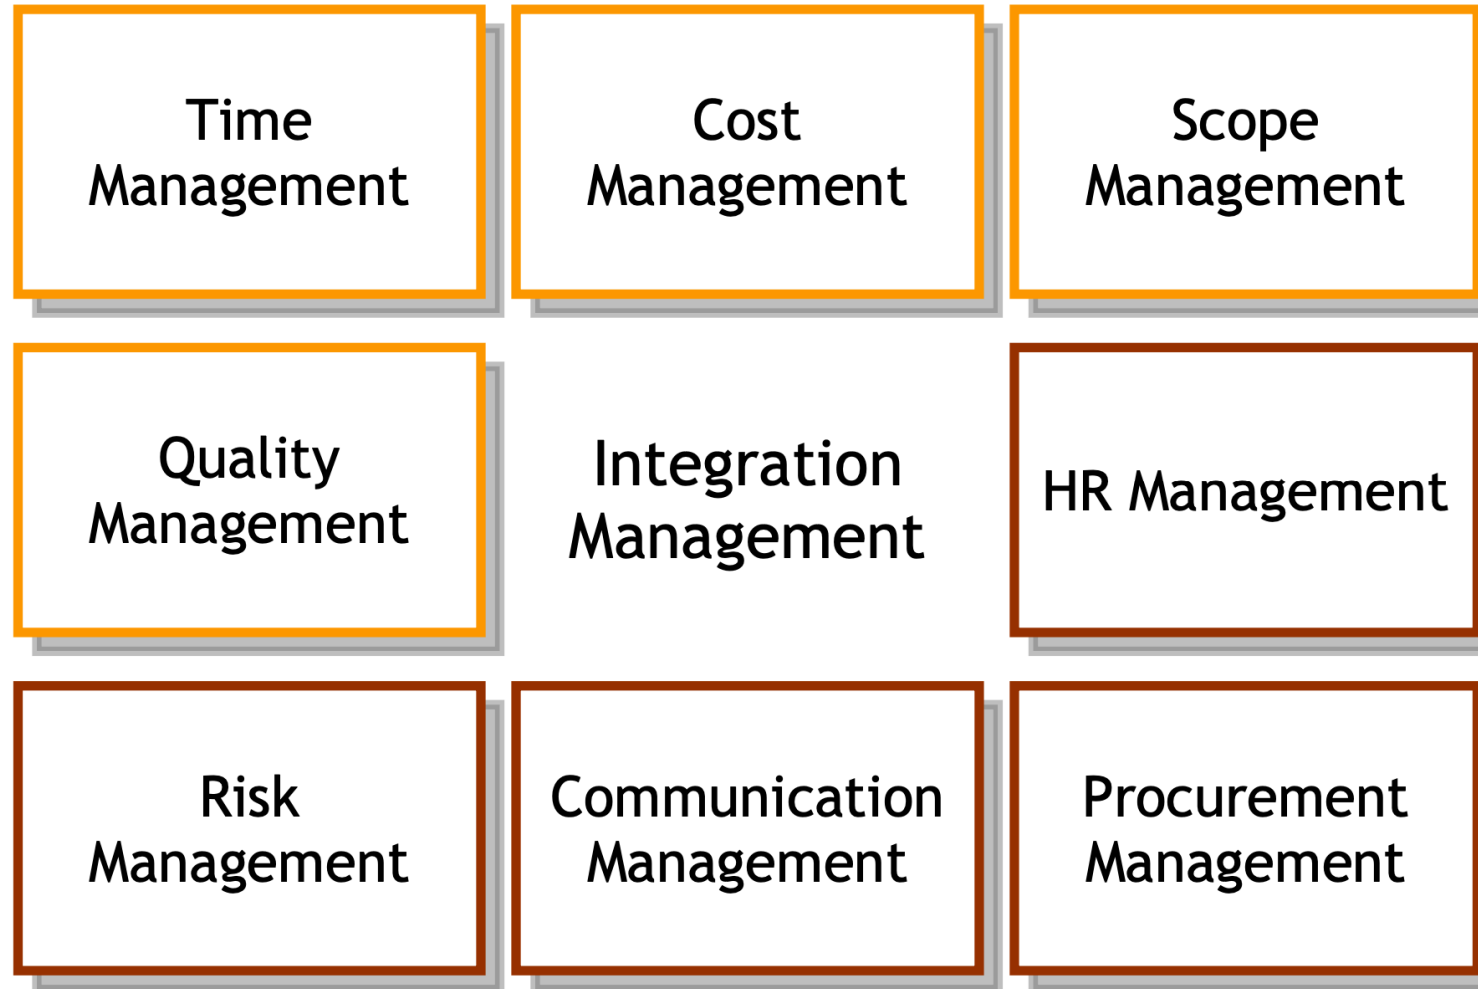

### Delivering

1. Train customer
2. Transfer documents
3. Release resources
4. Release staff
5. Lessons learned

# The Triple Constraint

# Project Management Framework

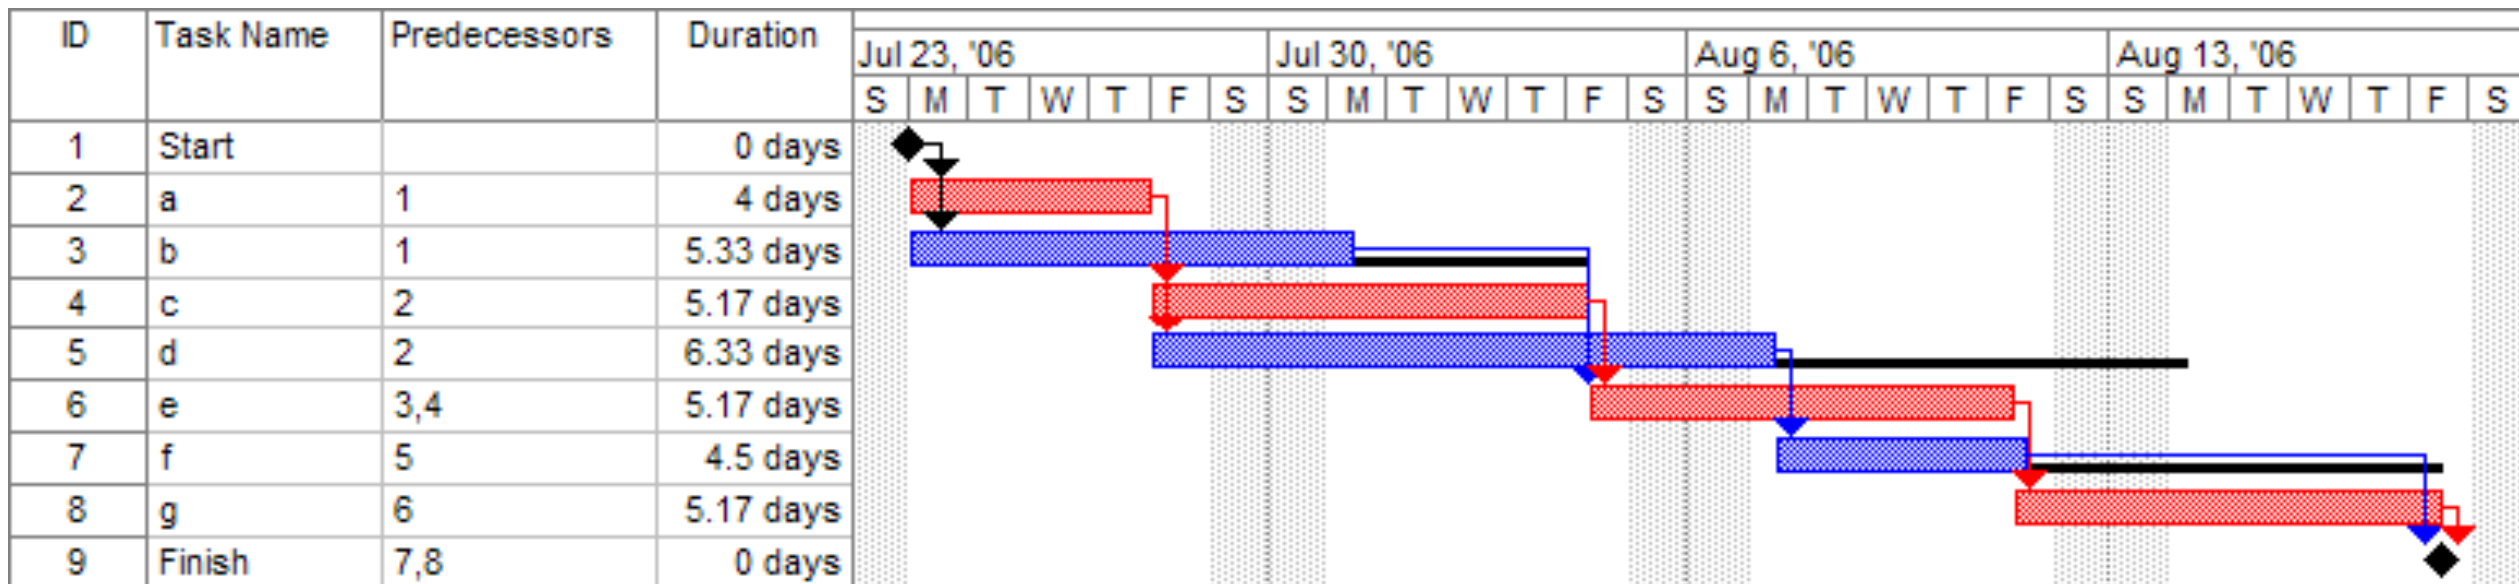

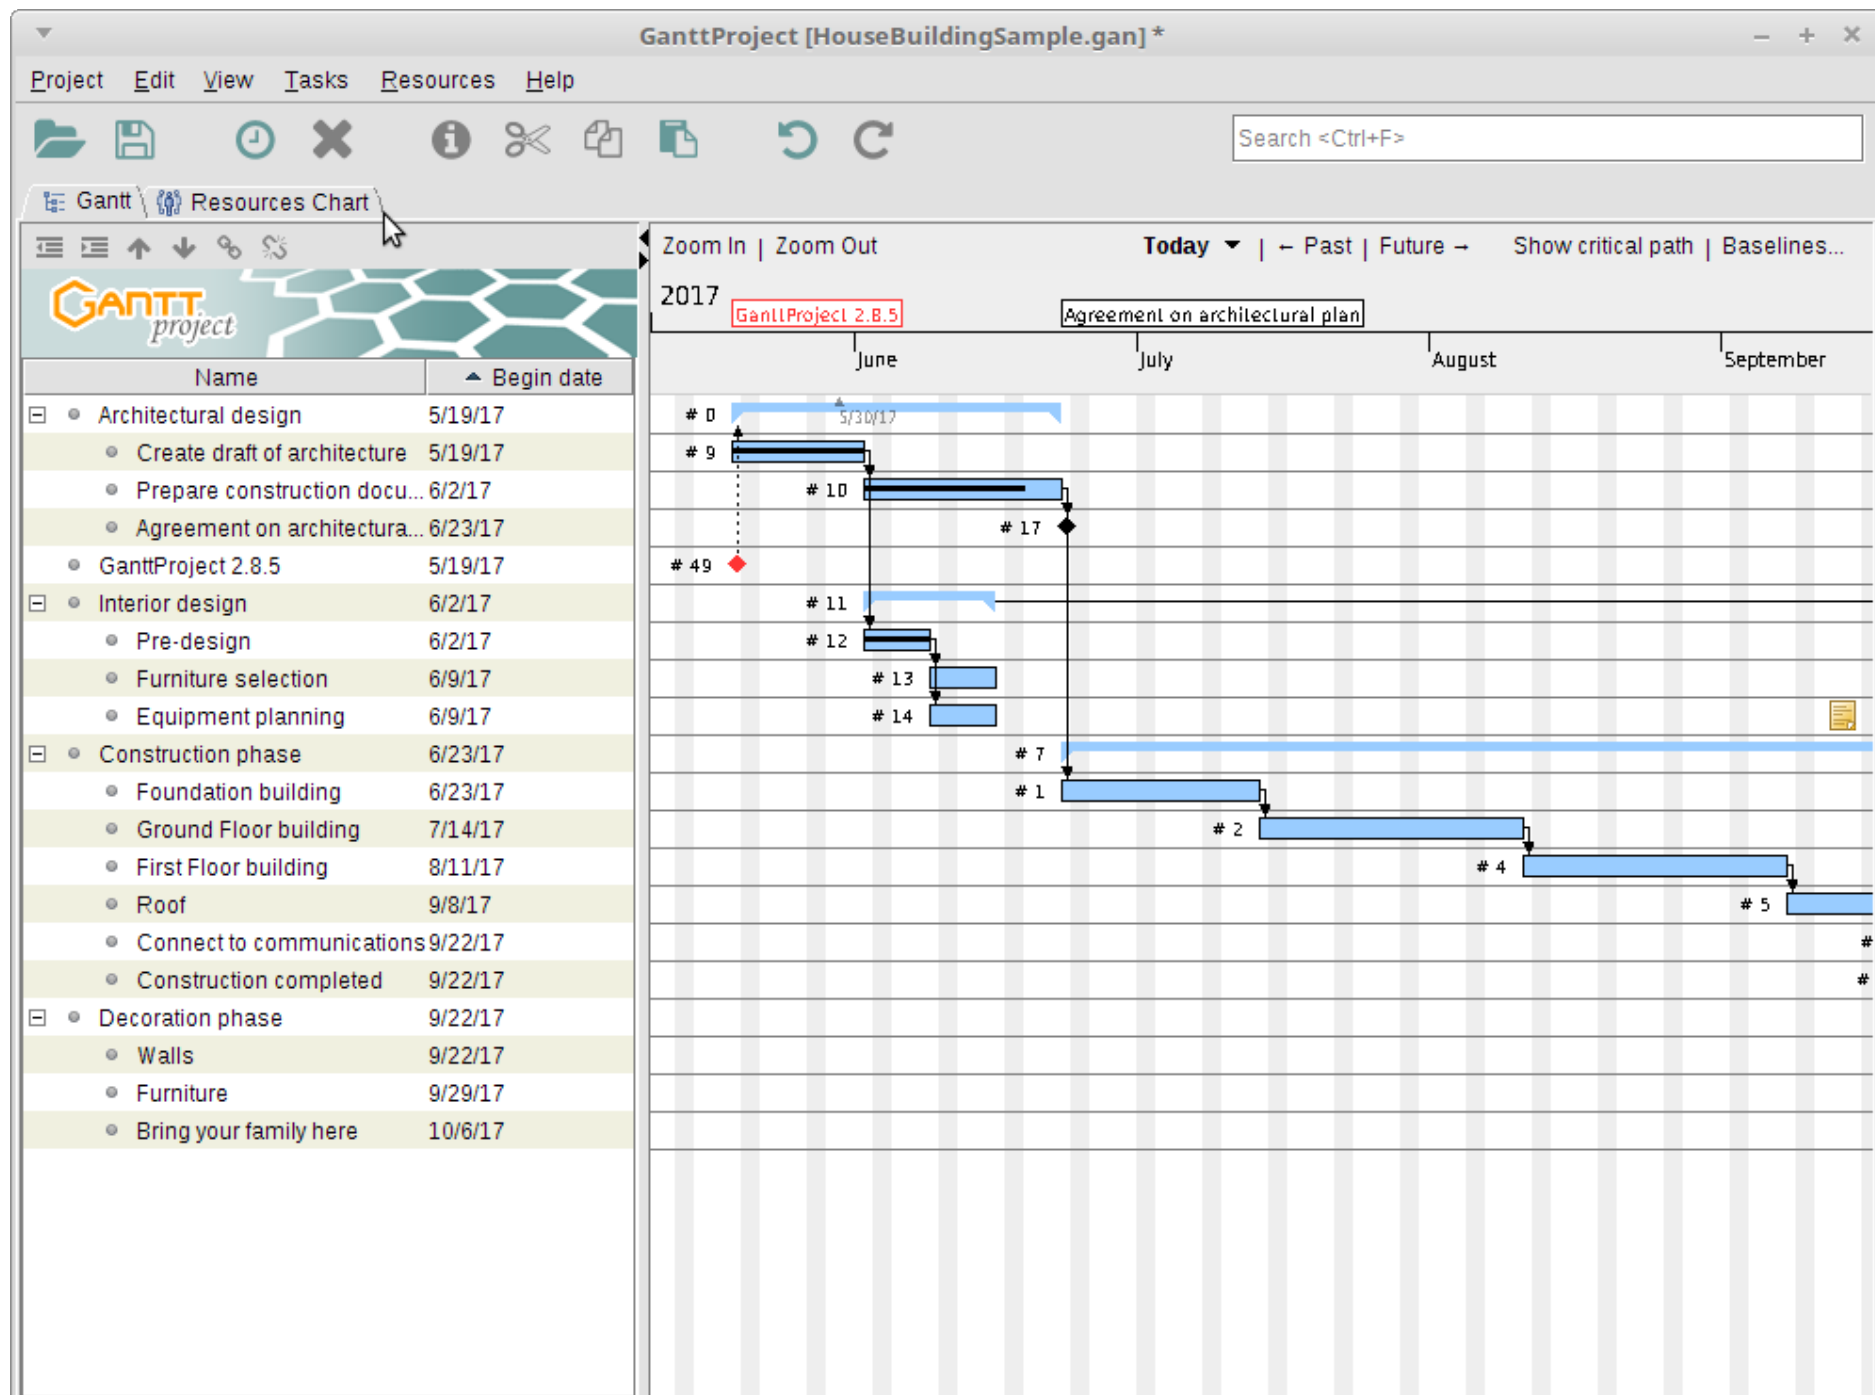

## Project Schedule: Gantt

- A Gantt chart is a type of bar chart that illustrates a project schedule, named after its inventor, Henry Gantt.

# Demo

- Schedule of building a new house

# Project Management Exercise

- Design and implement an online shopping website with 1 million RMB that satisfies 1 million monthly users.
